

Resources

We are looking for ways to fund new resources for around our school. We want to make sure you have what you need to help you learn.

Look out for new resources outside this term!

Teaching

We are training up your teachers in different ways so they can make your learning more interesting. We will be improving our teaching of shape & space, spellings, topic work and outdoor learning.

Using ICT

The PTA have bought new iPads and a charging trolley so we can use the iPads more as a class. Your teachers are also being trained in how to teach you coding. We hope to improve your ICT skills this year!

Outdoor Classroom

Your teachers have put their thinking caps on and come up with great new ideas for our outdoor classroom. We will all be planting and growing! We also have some new hedgerows coming in January which P5 to P7 pupils will be planting!

Ways to Improve Our School

We have asked lots of people in our school community, including the pupils about ways we can make things better. Here are some of the things we will be doing!

Forest School

We are going to become a Forest School! Your teachers will be learning lots of new skills to teach you outside starting with P2 and P5 pupils.

Dealing with Behaviour

We want everyone to feel happy in school and we want to treat everyone fairly. With this in mind we are looking at how we deal with unacceptable behaviour this year and we will be asking you your opinion too.

Events and Out of Class Activities

This year we are planning lots of out of class activities and our PTA are planning lots of fun events for you! Our Sustrans active travel events will be taking place and we hope to gain our Sustrans Gold Award too! It's going to be a fun year.

Clubs After School

We have been offering a number of clubs after school each day. We plan to try and keep a good mix of clubs available for you and also to change up some Friday clubs each half term. Make sure you get involved and have fun!
